Returns from the state auditor have made it possible for Judge H. W. Scott of the city court to balance his court statistics for the quarterly period ending April 30. Only 43 cases were entered in the three months, a number far below the average, although the quarterly period beginning Feb. 1 usually falls short of the average. In February 15 cases were cleared on the docket, in March the total was only nine, and during April 15 cases were disposed of. Four cases entered in the quarter are pending. The average for any three months in the year is not much under 80 and in the summer months the total for three months is apt to be much larger.
